NOTES

- a. Data refer to national literacy estimates from censuses or surveys conducted between 1995 and 2005, unless otherwise specified. Due to differences in methodology and timeliness of underlying data, comparisons across countries and over time should be made with caution. For more details, see <http://www.uis.unesco.org/>.
- b. Data for some countries may refer to national or UNESCO Institute for Statistics estimates. For details, see <http://www.uis.unesco.org/>.
- c. Because of the lack of gender-disaggregated income data, female and male earned income are crudely estimated on the basis of data on the ratio of the female nonagricultural wage to the male nonagricultural wage, the female and male shares of the economically active population, the total female and male population and GDP per capita in PPP US\$ (see Technical note 1). The wage ratios used in this calculation are based on data for the most recent year available between 1996 and 2005.
- d. The HDI ranks used in this calculation are recalculated for the 157 countries with a GDI value. A positive figure indicates that the GDI rank is higher than the HDI rank, a negative the opposite.
- e. For the purposes of calculating the GDI, a value of 99.0% was applied.
- f. For the purpose of calculating the GDI, the female and male values appearing in this table were scaled downward to reflect the maximum values for adult literacy (99%), gross enrolment ratios (100%), and GDP per capita (\$40,000). For more details, see Technical note 1.
- g. Data refer to an earlier year than that specified.
- h. No wage data are available. For the purposes of calculating the estimated female and male earned income, a value of 0.75 was used for the ratio of the female nonagricultural wage to the male nonagricultural wage.
- i. Statec. 2006.
- j. In the absence of recent data, estimates from UNESCO Institute for Statistics 2003, based on

- outdated census or survey information were used, and should be interpreted with caution.
- k. UNESCO Institute for Statistics estimates based on its Global age-specific literacy projections model.
- l. Data from earlier years were adjusted to reflect their values in 2005 prices.
- m. Heston, Alan, Robert Summers and Bettina Aten. 2006. Data may differ from the standard definition.
- n. For statistical purposes, the data for China do not include Hong Kong and Macao, SARs of China.
- o. Data refer to years or periods other than those specified in the column heading, differ from the standard definition or refer to only part of a country.

SOURCES

- Column 1: determined on the basis of the GDI values in column 2.
- Column 2: calculated on the basis of data in columns 3–10; see Technical note 1 for details.
- Columns 3 and 4: UN 2007e.
- Columns 5 and 6: UNESCO Institute for Statistics 2007a.
- Columns 7 and 8: UNESCO Institute for Statistics 2007c.
- Columns 9 and 10: calculated on the basis of data on GDP per capita (PPP US\$) and population data from World Bank 2007b unless otherwise specified; data on wages from ILO 2007b; data on the economically active population from ILO 2005.
- Column 11: calculated on the basis of recalculated HDI ranks and GDI ranks in column 1.

GDI ranks for 157 countries and areas

1 Iceland	28 Portugal	55 Panama	81 Lebanon	108 Namibia	134 Togo
2 Australia	29 Czech Republic	56 Trinidad and Tobago	82 Fiji	109 Botswana	135 Senegal
